Work Experience

J.D. Heiskell

Loader Operator - Wiggins, CO

March 2021 to Present

- Certified to operate Front-end loader and Skid steer
- Trained in Lock-out/Tag-out and Confined Space Entry
- Operated a front-end loader to load finished flake product into semi trailers
- Operated manufacturing equipment to ensure the correct quality flake was made
- Performed various tests on the flake, including boiler/water treatment tests and other routine checks
- Inspected both the loader and skid steer prior to operating to ensure safety/maintenance requirements were met at the start of each shift
- Assisted with general housekeeping using a leaf blower and sweeper-attached skid steer

BMC West

Pack Builder/Forklift Operator - Greeley, CO

July 2019 to February 2020

- Operated a propane powered forklift to maneuver about a lumberyard to gather building material listed on a pull ticket.
- Bundled material using a banding device and staged it for truck loading.
- Inspected forklift prior to operation
- Used good housekeeping practices in my assigned area and removed snow/ice as needed
- Unloaded building material from trucks/railcars

SandBox Logistics / US Silica

Yard Hand/ Operator - Greeley, CO

May 2018 to July 2019

This was an oilfield company and my position was in their yard facility.

Duties performed:

- Loaded/unloaded sand containers on/off trucks using either a 55,000lb diesel forklift or a front-end loader.
- Inspected sand containers and used power tools to complete repairs
- Trained in Fall Protection, used harness while inspecting tops of containers
- Loaded/Unloaded 16-foot platform mats and repaired damaged mats but removing damaged boards and replacing with new boards/carriage bolts.
- Inspected forklifts and loaders before operation and performed basic maintenance, as needed
- Used a Hotsy pressure washing system to wash trucks, chassis, loaders, forklifts, etc.
- Overall maintained the yard and assisted with various tasks involving the yard's upkeep.

Cargill Meat Solutions

Pipe Bone Saw Operator - Fort Morgan, CO

June 2017 to May 2018

- Used a band table saw to make multiple cuts on leg bones to retrieve "pipe" bone while maintaining pace with the production line.
- Trained/certified in Lock-out/Tag-out procedure
- Filled in where needed within fabrication department
- Operated a wizard knife to strip meat from bones
- Positioned pallets with lined containers to be filled with meat, fat, or bones
